**EPA ID#:** CTD001180728

**Efforts undertaken during the year to reduce the volume and toxicity of waste generated:**

During 2010 Bridgeport Fittings, Inc. continued its pollution prevention/waste minimization efforts. Bridgeport Fittings, Inc. continued to work closely with its chemical suppliers to minimize waste.

**Changes in volume and toxicity of waste actually achieved during the year in comparison to previous years:**

The volume of metal hydroxide sludge increased by approximately 21% in 2010 as compared to 2008 and increased by approximately 79% in 2010 as compared to 2009. The increase in metal hydroxide sludge generation is due in part to increased efficiency of the wastewater treatment plant. Improvement in wastewater quality has resulted in a higher volume of sludge generation.

**Certification**

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.
